

Hermes Trading s.r.o.

Hermes Trading is a company concentrated to trading and servicing of webbing and lifting materials and plastic plugs into metallurgical and construction companies.

Successful cooperation: Železiarne Podbrezova a.s., Třinecké Železárny, Feron, System Steel, Ened Steel

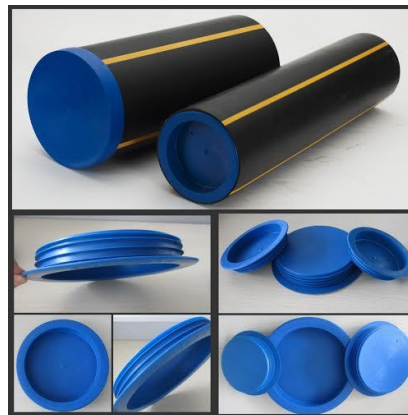

Products produced according to ISO4878, EN 1492-1:2000

Products

1) Tube plugs

PE plugs produced according to customers needs.

2) Webbing and lifting slings

Main advantage

- surface protection by handling
- softness, flexibility
- insulation properties
- low weight in accordance to lifting capacity
- easy manipulation
- long endurance by correct handling
- easy maintenance with usual abstergent
- elongation max. 5%

PRACTICAL USE

- Webbing slings have a good resistance against most of mineral acids and have low resistance against alkalis.
- Webbing slings are suitable for using in temperature scale from -40°C to $+100^{\circ}\text{C}$.
- Using by low temperatures can cause ice creation, which is good abrasive and cutting element. The ice creation may lead to internal defect on the slings. Ice also decreases elasticity and in extreme cases the sling is useless.

CHARACTERISTICS

Webbing slings have thanks to excellent use properties wide practical application in many branches of industry.

- material 100% polyester (PES)
- safety factor 7:1
- according to European standards STN EN 1492-1

Endless webbing slings (Round slings)

Produced according to STN EN1492-1, 100% PES

Lifting capacity up to 30t

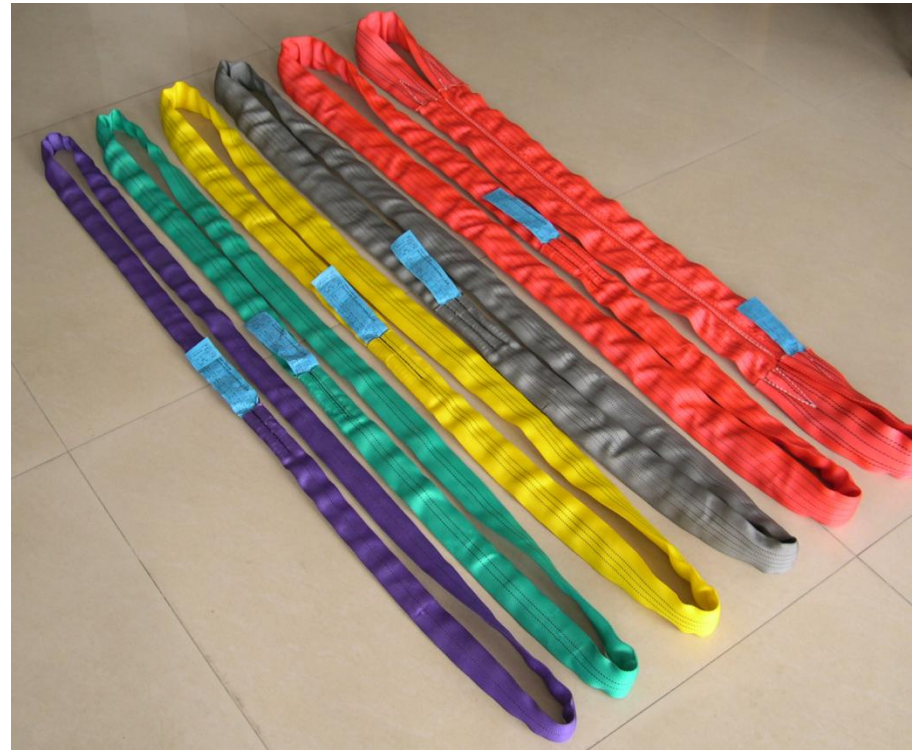

Standard length up to 20m

Possibility to produce slings according to customers needs
